

## Features

- Input Voltage 90~264V AC or 127~370V DC
- Cooling by free air convection
- Efficiency up to 89.5%
- Protection: OLP, OVP, SCP
- 3 Years Warranty

## 56YEL100-x AC-DC PSU Series

100W Enclosed AC/DC Power Supply (PSU)

The 56YEL100-x Series is a performance-focused 100W Enclosed AC/DC Power Supply. Designed for use in applications such as network equipment and signal distribution hardware. This series is supplied with a Screw Terminal Block input connection and supports input voltages of 90~264V AC 47~63Hz.

## Models

| Model       | Voltage (V)<br>DC | Rated<br>Current | Rated<br>Power | %<br>Efficiency | Voltage<br>range | Ripple and<br>Noise mVp- |
|-------------|-------------------|------------------|----------------|-----------------|------------------|--------------------------|
| 56YEL100-05 | 5                 | 18               | 90             | 85              | 4.5~5.5          | 100                      |
| 56YEL100-12 | 12                | 8.5              | 102            | 86.5            | 10.2~13.8        | 120                      |
| 56YEL100-15 | 15                | 7                | 105            | 86.5            | 13.5~18          | 120                      |
| 56YEL100-24 | 24                | 4.5              | 108            | 88              | 21.6~28.8        | 150                      |
| 56YEL100-36 | 36                | 3                | 108            | 89.5            | 32.4~39.6        | 200                      |
| 56YEL100-48 | 48                | 2.3              | 110.4          | 89              | 43.2~52.8        | 200                      |

| Input Specifications |                                |                                          |

| MTBF                          | 264.5Khrs min. MIL-HDBK-217F(25°C)                                                                            |
| Safety Protection             | Class I                                                                                                       |

| Safety & EMC         |                                                                                                  |
|----------------------|--------------------------------------------------------------------------------------------------|
| Safety Standards     | UL62368-1, EN62368-1                                                                             |
| Withstand Voltage    | I/P-O/P:3KVAC/1min I/P-FG:2KVAC/1min O/P-FG:0.5KVAC/1min                                         |
| Isolation Resistance | I/P-O/P:100M Ohms / 500VDC / 25°C/ 70% RH                                                        |
| EMC Emission         | Compliance to BS EN/EN55032 (CISPR32) Class B,BS EN/EN55035 BS EN/EN61000-3-2, BS EN/EN61000-3-3 |
| EMC Immunity         | Compliance to BS EN/EN61000-4-11 Criteria B, BS EN/EN61000-4-2,3,4,5,6,8 Criteria A              |

## Notes:

1. All parameters NOT specially mentioned are measured at 230VAC input, rated load and 25°C of ambient temperature.
2. Ripple & noise are measured from peak to peak with band width limit of 20MHz (0.1uf and 47uf /50V parallel capacitor under DC output full load, AC nominal input 25 °C ambient temperature).
3. Derating may be needed under low input voltages. Please check the derating curve for more details.
4. The power supply is considered a component which will be installed into a final equipment. The final equipment must be re-confirmed that it still meets EMC directives. For guidance on how to perform these EMC tests, please refer to "EMI testing of component power supplies."
5. The ambient temperature derating of 5°C/1000m is needed for operating altitude greater than 2000m(6500ft).
